Description

Available in Store: Sarasota - HIN: NIBV0095I425

Nimbus Commuter 11

The C11 is a fast and spacious year-round Commuter designed for long distance transport with high comfort. What distinguishes C11 from traditional commuters is that it can easily change its characteristics from "closed" to "open" to better suit day-to-day activities or as a family holiday boat.

The C11 is designed to easily transport up to 9 people fast, protected and comfortable year-round, regardless of weather conditions. What stands out is the flexibility of the boat which gives it more uses.

The heart of the boat is the cozy spacious salon with large light inlets and a seating arrangement that can easily be adjusted depending on activity. For example, transport for 9 people in the direction of travel, dinette for lunch or a large u-sofa for socializing. The flexibility comes from the fact that the two sofas can be folded and moved to different positions depending on the desired functionality with simple handles and that the table can be raised, lowered, rotated and folded. The salon has several easily accessible stowage compartments. The high ceiling height and natural lighting in the salon combined with fully opened side doors, open stern door and fully opened roof hatches gives the feel of an open boat. The helm seats two people in typical snug Nimbus manner and has plenty of storage compartments. As a driver you can choose to stand or sit while driving. The dashboard has space for two 12-inch plotters. Options include professional suspension seats and joystick steering.

Engine 1

- Mercury
- Verado V8
- Outboard
- 300.00 HP
- 223.71 KW
- Gas/Petrol

Engine 2

- Mercury
- Verado V8
